

O'Brien Facilities (OBF) recognises that our activities have an impact on the environment. We are committed to protecting the environment, preventing pollution, and continually improving the environmental performance of the company. This policy forms part of our integrated management system alongside ISO 9001 Quality and ISO 45001 Occupational Health & Safety Management Systems and conforms to the requirements of the ISO 14001:2015 Environmental Management System Standard.

Through the implementation of our Environmental Management System, we will:

- Prevent pollution and protect the natural environment from harm and damage resulting from our activities.
- Determine and comply with all applicable environmental legal, regulatory, and other requirements.
- Develop measurable objectives, targets, and management programmes to improve environmental performance and achieve continual improvement.
- Increase resource efficiency and promote sustainable use of materials and energy.
- Improve waste management practices and minimise environmental impact.
- Monitor, evaluate, and report on our environmental performance, including compliance with legal and other requirements.
- Identify environmental nonconformities and implement practical corrective and preventive actions.
- Engage with our staff, customers, and other stakeholders to raise environmental awareness and promote improvement initiatives.
- Continuously improve our Environmental Management System to enhance overall environmental performance.

This policy is controlled and maintained as part of our Environmental Management System. It is communicated to all employees, available to all interested parties and members of the public on request from the Director, and accessible to all persons working for or on behalf of O'Brien Facilities.
